Alan, I decided not to forward your comments. The time for such discussion of fundamental issues has passed for this round. The administrator and the administration has decided to move forward on endangerment, and your comments do not help the legal or policy case for this decision. I have stressed in previous emails that this is not a criteria document for climate change and greenhouse gases. If such a document is ever drafted, then perhaps your comments might be considered.

I can only see one impact of your comments given where we are in the process, and that would be a very negative impact on our office.
